

# Klassisk 30

## Product description:

Klassisk 30 is a traditional oil, intended for treatment of new, earlier untreated wood, as well as pressure-treated and earlier stained wood outdoors. The product protects the foundation against dehydration, cracking and discoloration.

Intended for untreated or oiled woods – planed or sawn – outdoors. Suitable upon wooden terraces, carpentry, furniture, fences, boats, etc.

Klassisk 30 is produced in Sweden.

## TECHNICAL DATA:

Area of application	Outdoors
Binder	Linseed oil /alkyd
Volume Solids	31%
Density	0,84 kg/l
Gloss	Dependent on surface
Thinner/Cleaning	White spirit/naphtha
Material consumption	4–12 m <sup>2</sup> /L
Temperature at painting	Minimum +5°C
Tools for painting	Brush, sponge or cloth
Dust dry	6 h
Re-paintable	24 h
Completely dry	48-72 h
Shelf life	2 years if unopened, frost free storage
Colour	Clear
Flammability	Not flammable
VOC category	(Cat. A/f): 700 g/l (2010)

# Klassisk 30

## How to use

### Pre-painting

Always start by reading the instructions on the label. It is important to be thorough from the beginning. The use of correct tools and a carefully performed base is the foundation for a successful result. Stir well from the bottom before starting to paint. The air and surface temperature is also important for the end result. Do not paint if it is below +5°C. The surface must be clean, dry and firm. Brush or scrape off loose old paint and/or porous and degraded wood. Wash and rinse with water and let dry.

### Painting

The oil is to be thoroughly penetrating the material until the surface stops to absorb the oil. Wait a few minutes and then wipe off excess oil with a cloth or a sponge. Treat the whole surface of a board simultaneously to avoid overlapping.

Be extra careful when it comes to end grains and timber joints.

### Post-painting

Wipe off the tools thoroughly before cleaning with white spirit. Seal the tin carefully after use and keep out of reach for children. Liquid residues may not be poured down the drain, but be submitted to the local collection point. Protect the environment, like we do.

**N.B.!** Cloths soaked in oil may spontaneously combust and must therefore be neutralised.

### Maintenance

It is good to repeat the treatment a couple of times pro year, especially in the autumn.
