| Density | 1,32 kg/l |
| Gloss | 6-8 (matt) |
| Cleaning/ dillution | Water |
| Material consumption | 10-20 m ² /L |
| Painting tool | Lining machine or roller |
| Dust dry | 1 h |
| Colour | White |

How to use

Pre Painting

Dilute the paint with 1 part color and 2-3 parts water.

Painting

Painted on dry grass and not at risk of rain. Apply the color with a lining machine or roller.

After Painting

Wipe / scrape the tools thoroughly before cleaning in water. Close the jar carefully after use and keep out of the reach of children

Liquid paint residues should not be poured into the sewage system, but left to the local environmental station. The reason is that it makes the cleaning process more difficult in the treatment plant. Protect the environment, we do.
